July 28, 2023

To the supervisor of Dylan Robinson:

As the Dean of Research at the SANS Technology Institute (www.sans.edu), I have the distinct pleasure of recognizing high achieving students on our Dean's List. Today, this includes one of your employees.

While in pursuit of their Bachelor of Science in Applied Cybersecurity last semester, Dylan demonstrated high levels of academic excellence and earned a spot on our Dean's List. We are proud of their achievement and grateful to have Dylan as a member of both our academic community and the wider information security field.

We also understand that many employers provide significant support to their employees while completing our academic programs, so we also want to thank you for supporting Dylan. Whether your help takes the shape of tuition assistance, time away from work to continue their studies, or professional mentoring, we appreciate the encouragement you provide to our students.

Finally, we'd love to hear from you how the skills that Dylan brought back to your organization are making a positive impact. If you would like to share any comments with the college, or with Dylan, please submit them in this short impact form (<https://www.tfaforms.com/5076744>).

Sincerely,

A handwritten signature in black ink, appearing to read "J. Ullrich", written in a cursive style.

Johannes Ullrich, Ph.D.
